PRESIDENT'S REPORT

On behalf of President Houshmand, Chairman Bruner presented the President's Report.

We are excited to welcome a new member to our board of trustees. Congratulations and welcome to Nikitas Moustakas. We look forward to your tenure on our Board of Trustees.

Today, we are seeking approval from our Board for a strategic bond financing that allows us, among other important projects, to fund the construction costs of our Shreiber School of Veterinary Medicine, planning to welcome its inaugural class in 2025 and a technology-enhanced classroom building which will help position us as the University of the future.

In terms of Admissions, deposits for First Time Undergraduates and Rowan Global are off to a strong start for Fall 2024. Combined (First time First Year and Transfers)

Undergraduate deposits including domestic and international are up thus far. Domestic Undergraduate First Time, First Year deposits are up 30%, Domestic Undergraduate Transfer deposits are up 7%, and International Undergraduate deposits total 95 thus far which is up over 900%. Overall Global deposits for Fall Semester 2024 stand at 567, up 17%.

Regarding facilities and infrastructure, site work has begun, and we should see foundations in the next few weeks on the Shreiber School of Veterinary Medicine and Virtua Health College of Medicine & Life Science Research Center. The free-roam pod in the South Jersey Technology Park for Dreamscape Learn is fully operational. Work on the immersive classroom begins this summer. The Chamberlain Student Center Expansion project is continuing with completion expected by the end of this academic year. Installation of the glass enclosing the building is anticipated to begin in mid-February.

Thank you to our community, particularly our students, for providing feedback in our Master Planning process as we work together to develop our campus of the future. We encourage your continued participation!

The Division of Student Affairs received a grant for \$200,000 from the Office of the Secretary of Higher Education to help students who left before graduating to re-enroll. This grant is putting financial support to work towards degree completion. The Dean of Students has provided more than \$70,000 in emergency funds and 1,357 emergency meal swipes at our dining facilities for students in need and plans to continue this program. Drs. Kirtie Yenkie and Gerard Capellades of Chemical Engineering and Dr. Chen Shen of Mechanical Engineering in the Henry M. Rowan College of Engineering have received the NSF CAREER Award, one of the most prestigious early career grant awards. The Rowan-Virtua School of Translational Biomedical Engineering and Science received the final NJ President's Council approval of the Master of Translational Orthopedic Device Engineering degree. The program is one of the first in the Nation and will train engineers and physicians to be leaders in creating and bringing novel orthopedic technologies to patients. We are currently recruiting our first class for Fall 2024. The Doctorate in Clinical Psychology has achieved Full accreditation from the American Psychological Association receiving the maximum period of ten years. Lastly, as we continue our path to R1, we continue to monitor progress on the updated standards for 2025 which require 70 research doctorates and \$50 million in total research spending. For the fiscal Year 2023, we had 52 research doctorates and \$4.7.8

million in total expenditures. Projections for this year show increases in both areas.

With respect to Advancement and Foundation initiatives, our current total for new gifts and commitments raised this fiscal year is just under \$17 million. Our Campaign Executive Committee has approved a name for our capital campaign: *Forever Forward: The Campaign for Rowan University*. Forever Forward has raised \$173.2 million since fiscal year 2022. Our next Day of Giving will take place on February 22. I would like to extend the University's gratitude to Ginny Rowan-Smith for issuing the "Board of Trustees Challenge" which has resulted in commitments for more than \$70,000 from our Board, with nearly 100% participation. Many thanks to all our Board members who've participated so generously thus far and please consider participation on February 22!

As for the Economic Impact Study, we recently contracted a firm to calculate the University's statewide economic impact. A similar study in 2019 indicated that our annual economic impact was \$1.5 billion. A soon-to-be study is showing that last year's economic impact statewide was \$2.9 billion. We'll have more good news to share when the report is final in about two weeks.

DECLARATION OF OFFICIAL INTENT UNDER TREASURY REGULATION SECTION 1.150-2 TO REIMBURSE PRIOR EXPENDITURES RELATED TO FACILITIES UPGRADES FOR CERTAIN ACADEMIC BUILDINGS ON THE GLASSBORO CAMPUS, THE RITA & LARRY SALVA SCHOOL OF NURSING AND HEALTH PROFESSIONS BUILDING, PHYSICIAN ASSISTANT BUILDING AT SEWELL, AND VARIOUS DEFERRED MAINTENANCE PROJECTS

- WHEREAS,** The County of Gloucester, New Jersey (the “County”) intends to issue debt obligations or be the borrower or other obligor on debt obligations, the interest on which is excluded from gross income under Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”) and a portion of the proceeds of which will be used to finance all or a portion of the costs of certain facilities upgrades to certain academic buildings on the Glassboro Campus, construction of a new facility for the Rita & Larry Salva School of Nursing and Health Professions, an addition to an existing facility in Sewell, New Jersey for the construction of a Physician Assistant program, and various deferred maintenance projects for Rowan University (the “Public University”) to better serve the needs of the Public University students, faculty and staff (the debt obligations herein referred to as “Project Debt Obligations” herein referred to as the “Project”), and
- WHEREAS,** once completed the County intends to lease the Project to the Public University and, in turn, the Public University will make lease payments to the County in an amount equal to the debt service on the portion of the Project Debt Obligations necessary to finance the Project
- WHEREAS,** the Public University has advised the County that it may pay for certain costs of the Project (“Project Costs”) prior to the issuance of the Project Debt Obligations with funds of the Public University which are not borrowed funds and for which the Public University would be reimbursed by the County with the proceeds of the Project Debt Obligations, and
- WHEREAS,** the Public University desires to preserve the rights of the County to treat an allocation of proceeds of the Project Debt Obligations to the reimbursement of Project Costs paid by the Public University prior to the issuance of the Project Debt Obligations as an expenditure for such Project Costs to be reimbursed for purposes of Sections 103 and 141-150 of the Code

NOW THEREFORE, BE IT RESOLVED by the Board of Trustees of the Public University as follows:

- Section 1.** The Public University reasonably expects the County to reimburse its expenditure of funds on Project Costs paid prior to the issuance of the Project Debt Obligations with proceeds of its Project Debt Obligations.

- Section 2.** This resolution is intended to be and hereby is a declaration of the Public University’s official intent to request the County to reimburse the Public University for expenditure of funds on Project Costs by the Public University paid prior to the issuance of the Project Debt Obligations with the proceeds of the Project Debt Obligations, in accordance with Treasury Regulation Section 150-2.
- Section 3.** The maximum principal amount of the Project Debt Obligations expected to be issued which are allocable to the financing of the Project is \$40,000,000, excluding all related financing costs.
- Section 4.** The Project Costs to be reimbursed with the proceeds of the Project Debt Obligations will be “capital expenditures” in accordance with the meaning of Section 150 of the Code.
- Section 5.** No reimbursement allocation will employ an “abusive arbitrage device” under Treasury Regulation Section 1.148-10 to avoid the arbitrage restrictions or to avoid the restrictions under Sections 142 through 147 of the Code. The proceeds of the Project Debt Obligations used to reimburse the Public University for funds spent on Project Costs, or funds corresponding to such amounts, will not be used in a manner that results in the creation of “replacement proceeds”, including “sinking funds”, “pledged funds”, or funds subject to a “negative pledge” (as such terms are defined in Treasury Regulation Section 1.148-1) of the Project Debt Obligations or another issue of debt obligations of the Public University, other than amounts deposited into a “bona fide debt service fund” (as defined in Treasury Regulation Section 1.148-1).
- Section 6.** All reimbursement allocations will occur not later than 18 months after the later of: (i) the date the expenditure from a source other than the Project Debt Obligations is paid; or (ii) the date the Project is “placed in service” (within the meaning of Treasury Regulation Section 1.150-2) or abandoned, but in no event more than 3 years after the expenditure is paid.
- Section 7.** This resolution will take effect immediately.

**UNIVERSITY SENATE REPORT
REPORT ON DEMOGRAPHIC
CHANGES AND IMPACTS
ON THE UNIVERSITY OF THE
FUTURE**

Dr. William Freind began his report with well-being. His team had their first meeting of strategy to develop a Master Plan for the entire University. He thanked Trustee Jean Edelman who has agreed to serve on this committee. How do we plan for the University of the Future? We need to focus on space that fosters community. The College of Business does this very well by providing space for students to become more involved with their peers. We will continue to work on having more spaces for student use. We are very excited about Dreamscape Learn, after visiting ASU Dreamscape Learn, we were about visually see how the learning aspect of Dreamscape will teach the students the material.

STUDENT TRUSTEE REPORT

Mr. Harrington opened with how great the semester is going and see the hope and pride from the student body. The student senate passed 5 new clubs this past semester, they are seeing a lot more student engagement, which was lacking after the COVID pandemic. Ms. Saar spoke about the elections of the new Student Trustee, Student Senate, and Alumni Collaboration. While the Board appreciates all of the positive reporting, Mr. Harrington was asked to share some of the negative concerns of the student body as well to inform the trustees of those issues. Michael answered that parking is a common complaint. It's a struggle to find a parking spot to make your class on time.
