Rowan University's Summer Bridge Program

## College Compass 2021

### Program Overview

College Compass is a program geared specifically for Rowan students with disabilities providing a smooth transition to college and campus life.

- Provides students with a chance to move in early and get settled before the majority of other students.
- Workshops to provide new Rowan students with valuable information.
- Personalized tours of campus not only showcasing valuable resources but also where all of our students classes are held.

Registration fee is \$250.00 and will include the following:

- Early move in
- Invaluable presentations for students
- Parent/student welcome mixer
- On and off campus events
- Meals
- Academic resources workshop

Please contact our office with any questions at woodruff@rowan.edu or 856.256.4234

Please register online at:

*"The College Compass experience helped me to find the locations of all my classes learn about resources and help me to make valuable meaningful connections. The program provided me a scholarship to attend and move in a week early before school started. I believe it is a very useful program that should continue to help future freshmen in the years to come."*

### Quotes from attendees!

*"College Compass helped me learn my way around campus and realize that people at Rowan are extremely helpful and caring. I never have to worry about being ostracized for asking a stupid question or feeling embarrassed because I didn't understand something"*

*"My college compass experience allowed me to relate to people who experience similar difficulties as I do. I am still friends with some of my fellow college compass members. The program was a way for me to understand the wide variety of support systems that are provided at Rowan University. I am very appreciative of the time the staff members took to mentor and guide us in the right direction."*

*"College Compass program gave me the confidence I needed to attend Rowan University. It was a difficult transition living on campus, keeping myself and my school work organized. The program helped me stay focused. I am so grateful to have been given this opportunity and feel without this program it would have been a more difficult transition"*
