Rowan University: From here to there

This document focuses on four key areas within the University:

- Financial Aid
- Program Development
- IT Support
- Deferred Maintenance

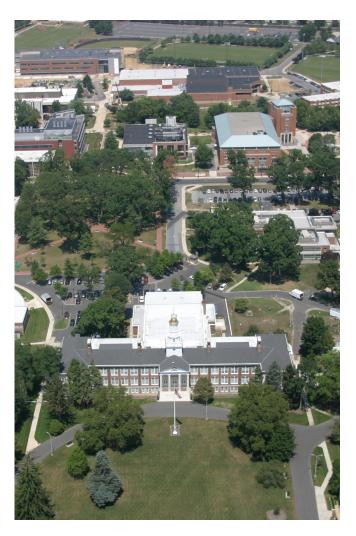

Rowan's historical method of budgeting was sufficient in decades past when the State of New Jersey sufficiently provided for this institution. Now, Rowan is faced with circumstances that challenge it to reexamine how money is ultimately utilized.

This summary and strategical overview of the proposed budget for FY2012 provide a consolidated historical viewpoint and insight into the strategy that is behind the financial information that follows. The purpose is to have a unified understanding of Rowan University's present and impending challenges and why the proposed course of action is being put forth.

Rowan University's budget has a past that is riddled with randomness. This institution is adjusting to think more strategically in the long term as it moves forward in its greatest endeavors. Rowan must be able to be increasingly responsive to changing external and internal stimuli, able to fully maximize its resources, and become accustomed to taking a continuous look at how money is really being spent on a year-round, case-by-case basis.

The following pages detail the spectrum of course-correcting actions identified by Rowan's refreshed leadership team as being imperative to the University's survival, success, and continued growth.

As a non-profit, state institution, our ultimate goal is to provide the highest quality education to as many NJ citizens as possible at the lowest achievable cost. To do so requires a sufficient amount of financial contribution from various sources such as state subsidies, tuition/fees, auxiliaries, advancement, as well as proceeds from our endowment.

>> FINANCIAL AID

Rowan's assistance is not satisfying student need

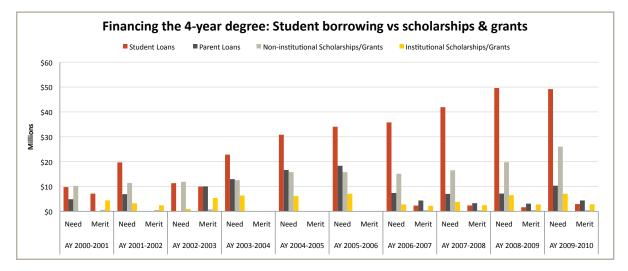

The State of New Jersey's financial contribution to Rowan University has been steadily declining. Rowan has reacted to its shrinking state allocation by increasing tuition and fees 163% from FY99 to FY10. The University is now relying heavily upon tuition in order to run its basic operations. This has simultaneously created a situation where an increasing number of students must seek some form of financial assistance in order to earn a college education.

163%
increase in the cost of tuition & fees

Fiscal Year	Tuition & Fees	NJ State Allocation	OTHERS	Annual AA Budget	AA Budget as % T&F	Total SCH Production	T&F Per SCH
FY99	\$34,854,751	\$35,088,000	\$5,656,111	\$42,642,659	122.3%	233,004	\$150
FY00	\$38,853,193	\$36,983,250	\$5,864,893	\$45,760,692	117.8%	237,699	\$163
FY01	\$41,779,282	\$39,016,082	\$5,800,865	\$47,980,045	114.8%	230,526	\$181
FY02	\$46,973,426	\$38,020,600	\$6,863,868	\$51,858,645	110.4%	238,502	\$197
FY03	\$54,707,992	\$38,128,071	\$7,512,369	\$54,196,896	99.1%	240,765	\$227
FY04	\$61,980,319	\$37,213,262	\$6,720,948	\$55,000,052	88.7%	246,072	\$252
FY05	\$70,491,558	\$39,293,567	\$7,600,658	\$61,648,857	87.5%	254,023	\$278
FY06	\$78,160,684	\$40,645,505	\$9,532,566	\$66,362,560	84.9%	255,816	\$306
FY07	\$83,740,485	\$36,488,000	\$10,728,910	\$69,264,876	82.7%	254,713	\$329
FY08	\$94,223,156	\$38,678,547	\$9,927,527	\$73,692,851	78.2%	265,504	\$355
FY09	\$105,116,525	\$35,799,500	\$10,506,153	\$76,784,798	73.0%	272,098	\$386
FY10	\$115,508,089	\$34,001,000	\$9,242,832	\$78,524,096	68.0%	292,907	\$394
FY11*	\$123,619,489	\$27,944,000	\$9,610,699	\$88,415,256	71.5%	299,316	\$413

*Projected

Others = University Advancement, etc.

Rowan must become more financially accessible

Separating the total financial support into the four major source categories, a significant pattern emerges: student loans are growing at a very rapid pace—doubling in the past five years and quintupling in ten. In the same time period, non-institutional scholarships nearly triple to meet demand. Rowan-funded efforts must increase and remain consistent in order to best meet student demand.

Special Programs pg 62

>> FINANCIAL AID

ROWAN IS REACHING ITS MAXIMUM STUDENT POPULATION CAPACITY, UTILIZING FACILITIES AND PHYSICAL RESOURCES CURRENTLY IN PLACE.

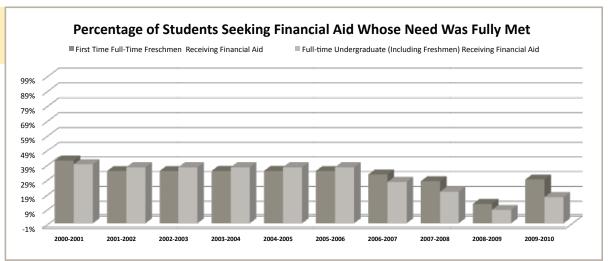

The University can no longer look to increasing the student body as a means of generating income without renovating, improving, and better utilizing its existing infrastructure and resources. Nor can it realistically expect to continue the drastic tuition increases seen over the last decade.

Beyond Freshman year: How is Rowan supporting students throughout the years?

Is Rowan university able to sufficiently meet the needs of its students from orientation through graduation? The answer is: on occasion.

Less than 40% of students' financial needs were **fully met** over the past decade

Surveys of Rowan students throughout their academic journey reveals an emerging pattern in recent years: students do not feel that their financial needs are being met after their Freshman year.

How competitors' superior aid packages hurt Rowan's ability to recruit

A lthough Rowan's base full-time undergraduate tuition appears here to be the more affordable option at first glance—coming in at about one third that of the University's IPEDS comparison group median—an examination of the net price of attendance for those students who have received grant aid or merit scholarships shows that higher-priced competitors are offering drastically more lucrative financial packages to attract student dollars. Specifically, it is in the area of merit-based awards where Rowan is deficient.

"No deposit" 2010: Why they didn't attend

A ccording to Rowan's very own "no deposit" survey—the voluntary survey of those students who applied and were offered admission to Rowan, but chose instead to attend another institution—participants consistently cite competitor schools' offering more financial incentive as the most common deciding factor for not enrolling at Rowan University. Featured here are the top reasons respondents to Rowan's "no deposit" survey cited as to why they chose to enroll at another college or university.

Initiatives to stabilize instructional cost and preserve Rowan's mission

R owan's primary goal has historically been and will always be to provide a high quality educational experience for those seeking a baccalaureate degree. Being proactive in our efforts to continually nurture the undergraduate core is an essential cornerstone of any viable plan to move Rowan forward. Key options to employ include:

ENROLLMENT MANAGEMENT

Rowan University will more aggressively engage in enrollment management practices.

Every time the University loses a student, it must spend additional money to recruit another to replace them. On average, an institution must spend money on recruiting 100 students to earn one enrollment.

Best practices dictate that Rowan should do more to retain the students it has spent money to recruit, enroll, house, feed and instruct.

MERIT-BASED FINANCIAL AID

Rowan will focus on increasing and stabilizing merit-based funding to stop the "brain drain" that occurs when desired prospective students consistently choose competitive institutions over this University.

Through boosting student aid packages, Rowan will be better able to ultimately enroll the top students it works hard to recruit.

>> DEFERRED MAINTENANCE

Ballooning deferred maintenance threatens Rowan University's assets

Rowan University appears to have consistently expended more than it has budgeted with respect to Facilities. Concurrently, Facilities' operating capital has steadily declined in recent fiscal years and is currently underfunded in FY2011. Long term strategies to reign in utilities expenditures are greatly needed moving forward.

From the desk of the VP of Operations & Facilities:

ISES Corporation Comprehensive Facilities Condition Analysis: 2005

 Surveyed 44 facilities and calculated a deferred maintenance need of \$144.6M

SIGHTLINES Return on Physical Assets (ROPA) Analysis: 2010

 The Stewardship Model indicates a total annual investment target need of \$13.2M

Facilities Investments

 \$53M has been invested into deferred maintenance projects between 2007-2011 from the 2006 Bond & Auxiliary funds

Unrestricted Operating Capital

 Annual operating capital allocations used for deferred maintenance and supporting projects has decreased from \$2.35M in FY2006 to \$0 in FY2011

>> DEFERRED MAINTENANCE

Facilities' capital needs: a bird's eye view of much-needed investment

Rowan is reaching the end of useful life of many of the major systems in nearly half of the buildings on the Glassboro campus, requiring a significant commitment to invest. Remaining ISES-determined capital costs from the 2005 report are visualized by building in the illustrated map below, color coded by severity of remaining investment still needed.

Approx. 45% of the buildings on Rowan's campus were constructed 30-50 years ago

Regular University pg 24

Auxiliary Operations pg 48

CGCE pg 54

Medical School pg 59

Special Programs pg 62

>> DEFERRED MAINTENANCE

Maintenance needs will continue to exceed current investments:

Three models estimate Rowan's appropriate investment target

Industry Standard Depreciation Model

\$27.6 million

>> based on 3% replacement value

LIFE CYCLE MODEL

\$25.5 million

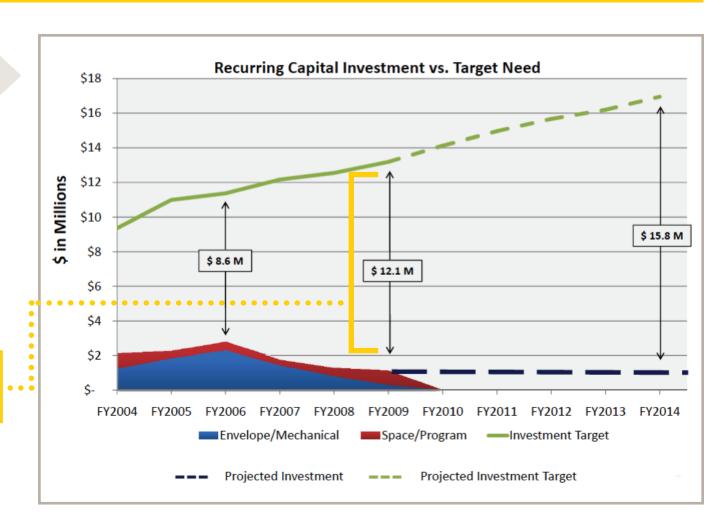

>> based on total need

Functional Obsolescence Model:

\$13.2 million

LIFE CYCLE MODEL DISCOUNTED FOR THE COORDINATION OF MODERNIZATION / RENOVATION

>> based on target need

In FY2011, annual unrestricted operating capital is unfunded, resulting in a \$12.1 million deficit according to the least comprehensive stewardship model.

Regular University pg 24

Auxiliary Operations pg 48

CGCE pg 54

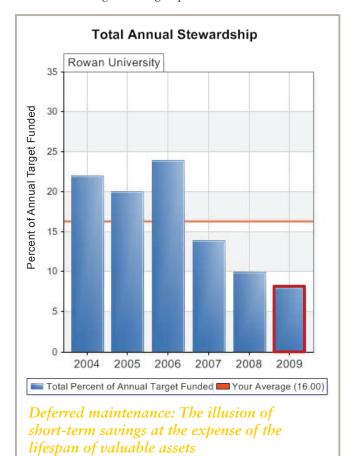

Medical School pg 59

Special Programs pg 62

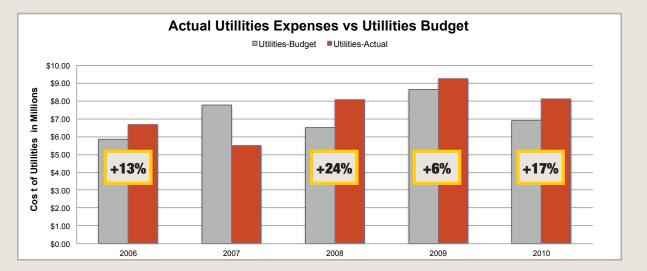

>> DEFERRED MAINTENANCE

DEFERRED MAINTENANCE FUNDING DOWN TREND:

Rowan has been investing less and is not protecting its assets, as is evidenced in the University's May 2010 Sightlines report solicited from an external consulting firm, whose findings are summarized in the chart below. Clearly, Rowan is well below the minimum target funding required to maintain its facilities.

FOCUSING ON UTILITIES EXPENDITURES:

Rowan has been outspending its annual utilities budget almost every year for the past five years. Facilities budgeting practices must establish a more consistent relationship between the utilities budget and actual utilities expenses from year to year.

Addressing maintenance of assets

R owan must give greater focus toward addressing deferred maintenance to reap the full rewards of its facilities on campus. Key options to employ include:

INCREASE FINANCIAL FRUGALITY

It is the responsibility of all areas of the University to look for savings. Rowan will begin to seriously invest in closing the growing gap between projected funding and what is practical over the long run. Creative strategic initiatives must be undertaken immediately to gain control over skyrocketing utility expenses.

Reversing the deferred maintenance trend of recent years will allow maximum utilization of resources and ultimately create a better campus for students.

from CGCE

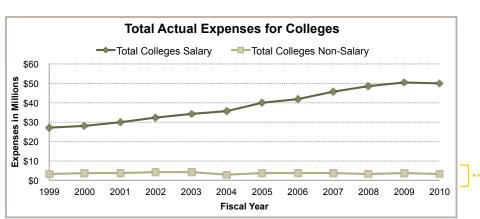

>> PROGRAM DEVELOPMENT

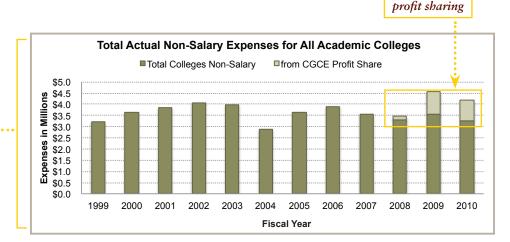

Investing in faculty development is investing in Rowan students

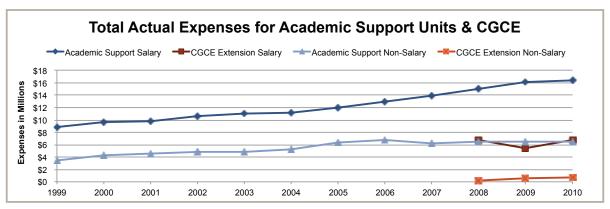

Rowan University has gone to great lengths to sufficiently staff its faculty ranks. However, Rowan may not necessarily be getting its money's worth in the years following each initial hire.

While the overall salary expenses for academic colleges has risen steadily with the addition of faculty to support the academic infrastructure of the institution, there has not been a match

in increase to the funding which supports and nurtures them in their individual areas of expertise. Faculty are the biggest cost drivers of the University. They must be given appropriate continued training, opportunities to showcase their expertise to the campus community and beyond, the ability to serve as ambassadors of the University, and more.

Financial Strategy & Budgetary Report

Introduction pg 1

CFO's Message pg 18

Regular University pg 24

Auxiliary Operations pg 48

CGCE pg 54

Medical School pg 59

Special Programs pg 62

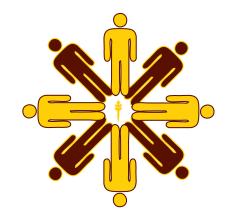

>> PROGRAM DEVELOPMENT

A focus on the University's greatest assets: People

Rowan must focus additional attention on maintaining and increasing the value of the faculty it has worked hard to recruit. It is imperative to the mission of the university that students be exposed to the newest ideas, latest techniques and best practices in the fields they are being graduated into. Key options to employ include making additional educational opportunities available to current faculty ranks.

Rowan will endeavor to match support services growth alongside faculty population growth to support and properly nurture the University's core investment toward students' success—faculty. Rowan has the workforce—and they are well paid. Now it is time to cultivate them so they succeed in bringing the utmost value to the very students who are paying good tuition dollars to learn from them.

Investing in Rowan faculty and developing their individual expertise to the fullest ultimately enriches the educational experience of students.

>> IT SUPPORT

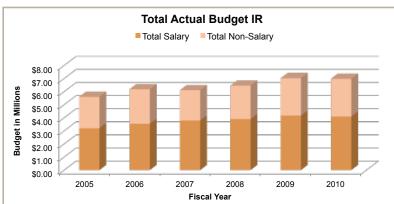

As dependence on IT infrastructure continues, so must fiscal support

Over the past 5 fiscal years, Information Resources' budgetary and staffing levels have remained relatively flat while continuing to meet demand that has, in some cases, risen ten-fold. Additionally, IR's lack of decision-making authority over institutional technology operations has been costing Rowan both in unnecessary additional up front monetary costs and in significant post-purchase man hours required to customize new systems and technologies which must interface with Rowan's existing robust IT infrastructure.

Virtually no growth in either staffing & budget in recent years

Financial Strategy & Budgetary Report

Introduction pg 1

CFO's Message pg 18

Regular University pg 24

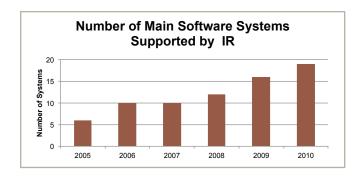

Auxiliary Operations pg 48

CGCE pg 54

Medical School pg 59

Special Programs pg 62

>> IT SUPPORT

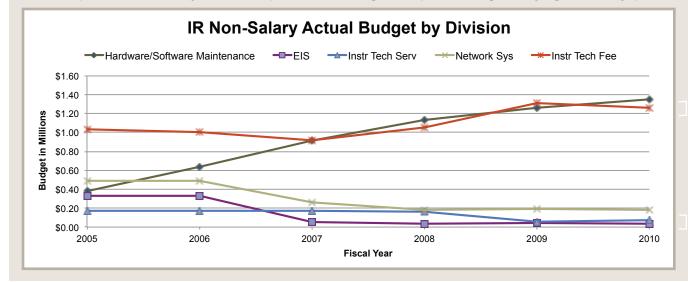

A three-fold increase in main systems supported by IR, while staffing and budget remain unchanged.

As institutions of higher education are uniformly transitioning toward digital workflows in every aspect of daily operations, the burden of work has been steadily shifting from the campus-wide "paper-pushers" to the IR personnel who expertly design and maintain Rowan's most vital data systems. There

has not been in increase in IR staffing in these recent years to accommodate the exponential rise in work load. Virtually the same number of staff are, instead, increasing their individual hours worked to meet the needs of the campus.

TAKING A CLOSER LOOK AT WHERE FUNDING REALLY GOES

The most significant portion of IR's budget consists of financing the things that tend to be taken for granted and are oftentimes assumed to simply exist here on campus—such as internet connectivity and Banner licensing. Unfortunately, this burden of responsibility has left the providing department largely without any significant funding of its own.

This portion of IR's budget is attributed solely to external activities such as supporting faculty computing needs, TEC classrooms, Banner, and other vital University-wide software licensing support.

THIS DECLINING PORTION OF IR'S BUDGET IS WHAT REMAINS TO SUPPORT THE DIVISION ITSELF AND ONLY ITS MOST BASIC NEEDS—WHICH ARE INCREASING DUE TO GREATER DEMANDS.

Financial Strategy & Budgetary Report

Introduction pg 1

CFO's Message pg 18

Regular University pg 24

Auxiliary Operations pg 48

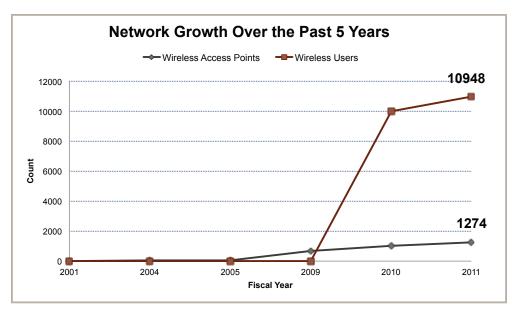

CGCE pg 54

Medical School pg 59

Special Programs pg 62

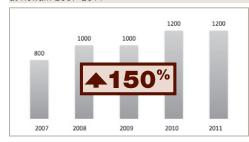

>> IT SUPPORT

The digital side of Rowan continues its rapid growth

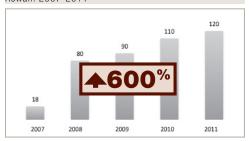

Illustrated here are some key examples of IR's terrific growth in technological areas that directly support the academic infrastructure of the institution at all levels.

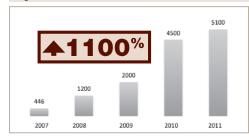

Growth of supported teaching and open lab computers at Rowan: 2007-2011

Growth of Technology Enhanced Classrooms (TEC) at Rowan: 2007-2011

Financial Strategy & Budgetary Report

Introduction pg 1

CFO's Message pg 18

Regular University pg 24

Auxiliary Operations pg 48

CGCE pg 54

Medical School pg 59

Special Programs pg 62

>> IT SUPPORT

Involving IR too late in the project cycle results in excess expenditures and wasted man hours.

Lack of centralization with regard to technology decisionmaking is costing Rowan University after-the-fact in the form of additional unplanned workload placed on Information Resources personnel.

System	Hours	Avg. Cost/Hr.*	Total Cost
Hobson's	577.5	\$69.67	\$40,234
Medi-Cat	210	\$59.24	\$12,440
IPARQ	55	\$76.09	\$4,185

Costs/Hr. = Salary + Fringe Benefits Cost

These three examples above are of software purchases made without prior consultation with the Office of Information Resources. The cost of retrofitting these rogue systems into Banner, the University's central repository for vital student information, clearly extends into the tens of thousands of dollars per project. Additionally, miscellaneous software purchases made outside of the IR-approved concurrent license model costs the university needless annual charges on a one-by-one basis.

Technology-centric cost-savings proposed solutions

Support the personnel who support the entire faculty and student population. Everything goes hand-in-hand.

FUNDING

- Siphon all IT fees directly to Information Resources.
- Reallocate technology funding, reducing support to underperforming departments and diverting needed support to over-performing departments.

Administrative Software

- Involve IR in initial software investigation, taking advantage of this office's intimate knowledge of University systems and requirements. This best practice will largely prevent costly cleanup like the three examples shown at left.
- Identify and automate campus-wide manual processes to become more streamlined and efficient.

ACADEMIC SOFTWARE / SOFTWARE LICENSES

- Utilize concurrent licensing where possible across the University in order to eliminate wasteful per-workstation license costs and only purchase based on actual monitored need.
- Where concurrent licensing is not available from a necessary vendor, leverage all individual licenses into one master agreement.
- Utilize existing University-licensed software for requests where similar functionality may be achieved.

Core University Data

• Create a centralized data warehouse for accurate and informative reporting across the entire University.

Centralizing technology decision-making through Information Resources will grow cost savings opportunities exponentially across the University.

In the example of the Adobe Master Collection software suite, concurrent licensing saves the university almost \$400,000 annually.

Special Programs pg 62

From the desk of the CFO:

Rowan University Consolidated Operating Budget Proposal Fiscal Year 2012

Overview:

Presented here is the FY 2012 Consolidated Budget proposal for Rowan University. The Consolidated Budget consists of the various operating budgets for the Regular University, Auxiliary Operations, the College of Graduate and Continuing Education, Cooper Medical School of Rowan University and Special Programs.

The Regular University Budget is the largest component of the Consolidated Budget. It is the main component where all undergraduate activity occurs and central services are provided.

The Auxiliary Operations Budget includes the operating activities of Residential Learning, the Recreational Center and the Student Center and Camps and Conferences.

The College of Graduate and Continuing Education includes the Graduate School, Summer Session and the Continuing Education programs.

The Medical School Budget captures the operating activity of CMSRU.

The Special Programs Budget is where the activity of the self funded programs is recorded. Special Programs are accounts with specific funding sources that cover the direct costs of the program. These programs also include the revenue distributions to Academic Affairs colleges and departments from CGCE and indirect cost recoveries on research grants as well as allocations from the Foundation. The funds are expended according to University policies and procedures.

The FY 2012 Budget was prepared on a consolidated basis. The main objective of the budget process was to develop a budget that balanced the needs of the University community while maintaining affordability. To accomplish this, the process involved reviewing all expenditures for appropriateness and need. Reductions and re-allocations were made between areas and additions were made in targeted strategic areas.

The Provost has identified the following strategic initiatives:

- Increase Financial Aid
- Greater IT Support
- Additional Program Development
- Deferred Maintenance.

The FY 2012 Budget attempts to address three of these four areas. The budget proposal includes an additional \$1.5 million in funding for scholarships. This funding will be used to enhance both merit and need based aid. In addition, an additional \$745 thousand was allocated to academic affairs to provide additional funding for both IT Support and Program Development.

Unfortunately deferred maintenance for the University is well over \$100 million and cannot be rectified through the operating budget. We have however built in \$2.25 million of capital funding in the FY 2012 budget.

Recent economic conditions continue to have an effect on the fiscal operations of the University. Steep declines in the financial markets have negatively impacted on the investments of the Foundation's endowment. In FY 2012, the distribution made available to the University to support operations will decrease \$ 460,161.

We also are reliant on continued State funding. In FY 2011 the Governor reduced our state appropriations by 15%. This was a permanent reduction. The reduction applied to the total appropriation which included the funding for the Medical School. Recently, the Governor

Financial Strategy & Budgetary Report

Introduction pg 1

CFO's Message pg 18

Regular University pg 24

Auxiliary Operations pg 48

CGCE pg 54

Medical School pg 59

Special Programs pg 62

indicated in his Fiscal 2012 Budget Address that funding for Higher Education would remain at the same level as last year. While this is an improvement over the FY 2011 message, it still represents challenges to the University. By maintaining level funding, the State's responsibility for funding the salary increases, negotiated by the State for our employees, falls to the University. The State also did not increase the number of State Funded benefit positions allocated to Rowan. The University requested 49 additional funded positions for the Medical School. The University will now be responsible for the fringe benefit costs for positions exceeding our allotted amount of 1,141 positions. It is projected that this cost will be \$605,000. The State has also continued the pattern of not funding our capital needs.

In order to meet our initiatives and face our challenges we are requesting a 3% increase in tuition and fees for FY 2012. Although the State has not imposed a cap on the tuition increases as in previous years, we have tried to meet our objectives with the goal of affordability. With this increase we are able to budget a modest operating surplus of \$1.1 million for FY 2012. On a consolidated basis, Total Revenues for Fiscal 2012 are budgeted to be \$261.6 million and Total Expenses are anticipated to be \$260.5 million.

While these forces have presented challenges, the fundamentals of the University's core operations continue to thrive. Student demand is at an all time high. We are anticipating increasing our transfer enrollment by 100 students starting in the Fall Semester. We have seen continued growth in our continuing education programs. Our efforts to have the Medical School open in FY 2013 continue and we are anticipating receiving applications for admission to the Medical School starting this summer.

Revenue Highlights

- General State appropriations are projected to remain constant at \$46.35 million. The Governor, in his Budget Address, maintained that funding for Higher Education in FY 2012 would remain at the FY 2011 levels.
- State Paid Fringe Benefits are estimated to be \$31 million in FY 2012. This number may be
 reduced as negotiations are under way with the State and the collective bargaining units.
 The State allotment of positions covered under the State Benefit program is limited to
 1,141.
- Undergraduate tuition and fee revenues are based on 8,545 full-time students and parttime enrollments of 6,300 credit hours for the fall semester. These numbers are based on
 last year's enrollments with an additional 100 full-time students projected. Non-resident
 enrollments are estimated to be approximately 2.6% of the total full-time undergraduate
 count.

We are proposing a 3% increase in undergraduate program tuition and no increase to our summer or graduate program tuition. We also are anticipating 100 additional undergraduate transfer students in FY 2012. Total tuition revenue is projected to be \$102.1 million in FY 2012.

Full Time Undergraduat	e Tuition Rates		
Full Time In-State Full Time Out of State	FY 2011 <u>Rate</u> \$4,198 \$7,877	FY 2012 <u>Rate</u> \$4,323 \$8,113	Per Semester Per Semester

 Student Fees are budgeted to increase by 3%. Total Student Fee revenue is projected to be \$33.8 million in FY 2012

Full Time Under	graduate Student Fees		
	FY 2011 Rate	FY 2012 <i>Rate</i>	
Full Time	\$1,640	\$1,686	Per Semester

- Rental rates for student housing are budgeted to increase by 3%. The Whitney Center, for Honor Students housing, is scheduled to open in September 2012. This will add an additional 280 beds to our housing inventory. Total rental income for Auxiliary Operations for FY 2012 is projected to be \$ 28.9 million assuming an occupancy rate of 95%.
- Other revenue is comprised of revenue generated by indirect cost recoveries, SGA allocations, miscellaneous fees charged at the Rec Center and Student Center, Cooper University Health System's contribution to the start up cost of the Medical School and special program revenue. For FY 2012 we project other revenue to total \$12.4 million, a decrease of \$1.0 million from projected FY 2011 levels. The primary driver for this decrease is the loss of the payment of \$2.8 million from Cooper University Health System in FY 2011. This payment was intended to provide the University with a one-time offset to the permanent reduction in the State Appropriation that the University absorbed on behalf of the Medical School.

Financial Strategy & Budgetary Report

Introduction pg 1

CFO's Message pg 18

Regular University pg 24

Auxiliary Operations pg 48

CGCE pg 54

Medical School pg 59

Special Programs pg 62

- Commission revenues net of expenses are decreasing by \$91,718 over projected FY 2011 levels. We are anticipating Commission Revenues to be \$1.1 million in FY 2012. Commission revenue is generated by the Food Service Operation (Sodexho) and the Bookstore (Barnes & Noble). The expenses for the Bookstore facility are increasing faster than the sales commissions received.
- The projected revenue distribution from CGCE operations is increased \$20,000 from FY 2011 to \$12.5 million. The increase is attributed to an increase in the continuing education programs of CGCE. The Regular University will receive \$9.3 million from CGCE and \$3.2 million will be distributed to Academic Affairs through the Special Programs accounts.
- Revenue distributions from Auxiliary Operations are projected to be \$3.1 million in FY 2012
- We are anticipating that \$610,000 of the reserve for the Medical School will be utilized in FY 2012 to support operational costs.
- The Foundation allocation decreased \$460,161 from FY 2011 levels to \$5.14 million in FY 2012. The allocation is calculated by multiplying the average market value of the Rowan endowment for the last 12 quarters by 4.5 %.
- Interest earnings are projected to decrease by \$275,000 from FY 2011. We are projecting interest income to be \$325,000 in FY 2012. This decrease can be attributed to a decrease in interest rates as well as the repayment of the loan by South Jersey Tech Park in FY 2011.

Expenditure Highlights

On a consolidated basis, salaries are increasing by \$3.2 million or 3.0% over the FY 2011 budget. This increase is a result of negotiated increases that went into effect in FY 2011 as well as the cost of incremental salary increase that are part of the negotiated contracts. Also included in the increase are anticipated additional salaries totaling \$1.6 million for the Medical School.

- Fringe Benefit Expenses will exceed the State Paid Fringe Benefits allocation due to the University exceeding its allotted state funded position count of 1,141. In the State's FY 2012 Budget, the University requested an additional 49 positions for the Medical School. As of the issuance of this report, the request was not included in the State's FY 2012 Budget. The University's State Funded Benefit position count remained at 1,141. If the count remains unchanged the University will be responsible for a projected \$605,000 in fringe benefit expense.
- On a consolidated basis, Non Salary operating expenses are projected to be \$34.19 million. The Medical School is expected to increase their Non Salary expenditures by \$1.2 million as they ramp up for their opening. The Regular University is also expected to increase Non Salary expenditures by \$420,955. The budget includes additional funding for Academic Affairs totaling \$745,259 which is offset by reductions totaling \$324,304 throughout the University. Auxiliary Operations has also reduced their FY 2012 projected expenses by \$468,000.
- Utility costs are projected to increase \$257,000 over FY 2011 levels. The adjustment is driven by increased utility rates.
- Waiver and scholarship expenses are expected to increase by \$1.8 million or 20% over FY 2011 levels. The major driver behind this increase is an additional \$1.5 million budgeted to fund the Provost's initiative for additional merit and need based scholarships.
- Rental expense for Rowan Boulevard is increasing \$2.9 million. The addition of the lease
 for the Whitney Center plus the rent increases associated with prior agreements is causing
 this increase.
- Debt Service expense for FY 2012 is \$33.8 million on outstanding debt of \$445 million.
- The Capital Funding allocation from Operations for FY 2012 is \$2.25 million.
