Commencement 2020

Celebrating Commencement includes publishing an annual commemorative booklet with the names of Rowan University candidates for graduation. For the 2020 virtual ceremony, we share an adapted, electronic version of the booklet traditionally presented at in-person events. In this PDF you will find candidates' names, while candidates who are qualified for recognition by honor societies, military service and as Medallion Award recipients appear in the PDF named for each of those groups on the virtual ceremony website.

This PDF lists candidates for graduation whose applications were received by the Spring 2020 publication deadline. Candidates who applied for graduation after the deadline will be recognized in the 2021 Commencement program. Being listed in this publication does not indicate that a candidate qualifies for a degree to be conferred. Candidates must fulfill academic requirements for their degree programs.

GREETINGS

Dear Class of 2020,

Each year, I take tremendous pride and satisfaction in the University's biggest day. It is a joyous time when we welcome you and your loved ones to celebrate with the Rowan community at Commencement festivities.

We all know that this year is not like any other in so many ways and yet, I am just as proud—even more than ever, in fact—of what you have achieved under extraordinary circumstances. You should be proud, too, knowing that your years of hard work and dedication have brought you to this day. Your loved ones, all those who supported you, should share your joy and sense of accomplishment, as well.

Your Rowan degree is evidence of your ambition, discipline, creativity, adaptability and persistence. These are honorable characteristics that will help you continue to make your way through a world full of opportunities, uncertainties and compelling needs with the capacity to respond with kindness, ingenuity and leadership.

I am confident that you are equal to the challenges that lie ahead, especially because of what you've conquered in the final push toward your graduation.

I look forward to welcoming you all back to campus as soon as it is safe to hold a Commencement event. You've earned the honor of hearing your name called and shaking the hand of your dean on stage before those who supported you in pursuit of your Rowan degree.

Until then, I commend you for what you've accomplished. I encourage you to excel in every way, serve those around you and remember that you are capable of great things, especially in times of adversity.

Warmest regards,

A handwritten signature in gold ink that reads "Ali A. Houshmand". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

ABOUT THE COMMENCEMENT SPEAKER

Adam Savage

Adam Savage has spent his life gathering skills that allow him to take what's in his brain and make it real. He's built everything from giant Buddhas and futuristic weapons to fine-art sculptures and dancing vegetables.

The son of a filmmaker/painter and a psychotherapist, his previous positions include projectionist, animator, graphic designer, carpenter, interior and stage designer, toy designer, welder, and scenic painter. He has worked with every material and in every medium he could fathom — metal, paper, glass, plastic, rubber, foam, plaster, pneumatics, hydraulics, animatronics, neon, glassblowing, mold-making and injection molding, among others.

In 1993, Savage began concentrating his career on the special-effects industry, honing his skills through more than 100 television commercials and a dozen feature films, including *Star Wars Episode I: The Phantom Menace* and *Episode II: Attack of the Clones*, *Galaxy Quest* and the *Matrix* sequels.

MythBusters, with Savage and Jamie Hyneman as hosts and producers, premiered on Discovery Channel in January 2003. Fourteen years, 279 episodes, 1,015 myths, 2,950 experiments, eight Emmy nominations and 83 miles of duct tape later, that version of the series ended in March 2016.

Today, Savage is host and executive producer for MythBusters Jr., as well as a brand-new series, Savage Builds,

which premieres on Science Channel in June 2019. He also stars in and produces content for his website, Tested.com, including behind-the-scenes deep dives into multiple blockbuster films, such as *Alien Covenant*, *Mortal Engines* and *Blade Runner 2049*.

In addition, after a lifetime of hunting for the perfect gear bag, he launched Savage Industries to manufacture his own. Made in the United States and constructed primarily from recycled sailcloth, every bag is unique.

In 2019, Savage finished his first book. *Every Tool's a Hammer* is “a chronicle of my life as a maker.

It's an exploration of making and of my own productive obsessions, but it's also a permission slip of sorts from me to you. Permission to grab hold of the things you're interested in, that fascinate you, and to dive deeper into them to see where they lead you.”

Savage lives in the San Francisco Bay area with his wife and their two dogs.

ABOUT THE DISTINGUISHED ALUMNA

Catherine Ni, B'00

As director of Advanced Rotary Wing and Ground Systems at Lockheed Martin Missiles and Fire Control in Orlando, Fla., Catherine Ni is a long way from the labs and study spaces of Rowan Hall.

But she carries lessons of her days as a Rowan mechanical engineering major everywhere she goes.

Ni, who also holds a Master of Science degree in Engineering Management from Drexel University, is responsible for the strategy, product development and execution of multiple programs that help keep our country safe, including products and resources for the United States Marine Corps and the U.S. Army. In addition to her Rowan and Drexel degrees, Ni is a graduate of Lockheed Martin's Operations Leadership Development Program.

Since joining Lockheed, Ni has held various positions of increasing responsibility, all of them in support of America's Armed Forces.

Among her many accolades, Ni received the Henry M. Rowan College of Engineering Alumni Award in 2014 and was named among the University's "40 under 40" distinguished alumni in *Rowan Magazine* in 2016.

During her time at Rowan, Ni was a member of Alpha Sigma Alpha sorority, served with the Student Government Association and helped found the University chapter of Society of Women Engineers. She was also part of the first

team of Public Safety Practitioners, a four-year commitment that provided room and board in exchange for public safety and proctor duties.

A volunteer with the Orlando Food Bank, she and her husband, James, are longtime supporters of the University. In 2011 the couple established an annual scholarship for engineering students and, in 2016, created an endowed engineering scholarship fund. Ni has also been an active participant in various Rowan groups, including the Alumni Committee and the Dean's Advisory Board.

Presented annually at Commencement, the Distinguished Alumnus Award honors alumni who personify the

Rowan tradition of excellence and who have brought credit to the University through personal accomplishment, professional achievement and/or humanitarian service.

The Distinguished Alumnus Award is the highest honor bestowed upon alumni by the Rowan University Alumni Association Board of Directors.
