

Rowan University Hazing Report: 2023-24

Organization	Report Date	Description	Findings	Sanctions	Resolution Date
Alpha Kappa Alpha Sorority, Inc.	10/27/23	Allegation that sorority advisors are aware of off campus hazing and have not reported, and potential new members are encouraging others to participate in hazing (including paddling).	No Charge: investigation conducted and all Rowan University Lambda Rho potential new members interviewed reported no hazing or expectation of such by sorority; incident also reported to the sorority's regional director for possible action against Theta Pi Omega alumnae chapter and/or individual alumnae not recognized by Rowan University.	Individual students were removed from the new member process by the sorority.	11/30/23
Lambda Tau Omega	1/29/24	Allegation that participation in hazing activities (not defined/described) is required for new members interested in joining.	Special Interim Campus Hearing Board found the organization not responsible: The organization did not take new members during this time period and it was found to be more likely than not that this report was falsified as retaliation for another matter.	Organization's National Governing Board issued a cease and desist 2/1 while an investigation was conducted. This was unfounded and rescinded.	3/6/24

Rowan University Hazing Report: 2023-24

Organization	Report Date	Description	Findings	Sanctions	Resolution Date
Tau Delta Phi	2/8/24	A student was found intoxicated in a residence hall and told the responding staff members that he was forced to drink and do things that he cannot tell anyone by the organization.	The Special Interim Campus Hearing Board for Organizational Conduct determined that the preponderance of information did not support a finding of responsibility as no new member process was (formally or otherwise) conducted.	Interim organization suspension issued 2/9 while an investigation was conducted. The suspension was rescinded after the Campus Hearing Board process.	3/1/24
