Main Campus Energy Infrastructure Modernization Project

Location: Glassboro Campus

Status: Underway

Forecasted Project Delivery: Ongoing

Development Cost: **$**14.9 million

Project Partner: Siemens

Project Planning & Development: Facilities, Planning & Operations

***Prioritization Category:** Category 4

By partnering with Siemens, a global industry leader in industrial automation, smart infrastructure, building technologies and digitalization solutions, Rowan aims to transform the University's obsolete infrastructure into a modern environment better suited to accommodate the needs of future students and researchers by increasing energy efficiency, modernizing energy infrastructure, and protecting business operations.

* Projects are guided by the "University of the Future" priorities in the following categories:

1. Classrooms and Laboratories
2. Student Housing Needs
3. Space for New Faculty and Staff
4. Deferred Maintenance & Modernization
5. Internal and External Collaboration Spaces
6. Advancing the Academic Mission
