

West Campus Infrastructure Project

Location:
West Campus – Mullica Hill, NJ

Status:
Design

Forecast Project Delivery:
May 2025 – Phase I

Development Cost:
\$10 million

Design Consultants:
Pennonni Associates

General Contactor:
TBD

Project Planning & Development:
Division of Facilities, Planning & Operations

***Prioritization Category:**
Categories 1, 3, 5 & 6

Description

West Campus is expected to experience significant growth in the next five to ten years and currently has over \$200M in capital projects either planned or underway.

The West Campus Infrastructure Project includes the development, design and construction of all roadways, walking and biking trails, water, sewer, power and fiber to support West Campus. The intention of this project is to develop a multi-modal transportation system that encourages driving, walking, and biking, while the installation of the infrastructure helps to support the development of new building projects that will promote the growth of Rowan University.

Design of the West Campus Infrastructure Project by Pennonni is ongoing. The West Campus Infrastructure Project will be completed in multiple phases. An RFP for installation and construction of Phase I is expected to be issued in Fall 2024

*Projects are guided by the University of the Future Priorities in the following categories:

1. Classrooms and Laboratories
2. Student Housing Needs
3. Space for New Faculty and Staff
4. Deferred Maintenance & Modernization
5. Internal and External Collaboration Spaces
6. Advance Academic Mission
