FERPA INFORMATION
Please partner with us in supporting students’ rights and responsibilities to include others in their education. Family members are encouraged to communicate with their students regarding their academic progress, the program of study, grades, or any other information about their Rowan record or experience. Family members wishing to obtain information about a student’s record should receive that information directly from the student. The Family Educational Rights & Privacy Act (FERPA) governs what information can and cannot be shared with anyone who is not the enrolled student. The FERPA Act of 1974 protects the privacy of individual students by placing restrictions on the disclosure of information.

Utilizing proxy access, Rowan University students can grant to designated individuals the ability to view certain student information via Self-Service Banner.
