PRESIDENT’S REPORT

President Houshmand welcomed everyone and congratulated the University on the completion of another very successful academic year.

President Houshmand shared that the 2022 Commencement Week was a huge success. The university held 19 ceremonies, with 18,000 guests on campus, and 4,300 graduates. Dr. Houshmand commended the hard work of the University Events team and the 500 student and staff volunteers, giving a special thanks to the Board members who attended, especially Dr. Barbara Chamberlain for attending all 19 ceremonies.

In terms of fall undergraduate admissions, the University received more than 19,800 applications for Fall 2022, which is the largest number of applications to date. More than 3,000 of those students accepted have already committed to Rowan by making a deposit. Additionally, a record-breaking 2,500 out of state applications were received, exceeding last year’s total by 100%. Global Learning & Partnerships is experiencing record interest with over 6,000 applications and 1,400 deposits for the fall. The University’s recruitment focus remains on expanding opportunities for students from all backgrounds, helping them avoid excessive debt burden as they work toward their educational goals.

Cooper Medical School of Rowan University (CMSRU) received 5,032 applications and will welcome 208 students this fall. The mean GPA for this incoming class is 3.81, and the mean MCAT score is 514. Of the 208 new students, 15 are underrepresented in medicine (URM). The class is currently split with 70% of students from New Jersey and 30% of students from out of state. The Rowan School of Osteopathic Medicine (RowanSOM) received 6,145 applications and will welcome 288 students in August. Of the 288 acceptances, 56% are female, 43% are male, and 1% are non-binary, with 214 being New Jersey residents, and 45 URM.
The Advancement team continues to fundraise at an amazing pace, with the total for new gifts and commitments raised this fiscal year to date just over $108M. President Houshmand thanked the donors, the Board of Trustees, and the Rowan community for their support in helping support the most successful fundraising year in the history of the University. As of March 31, the Rowan University Foundation had assets of $368M, and the value of the University’s investments was $243M, for a combined endowment and quasi-endowment total of more than $611M. On June 3, 2022, the annual President’s Forum Donor Recognition event was held on campus. After two years of being held virtually, the in-person event yielded over 220 attendees.

In terms of Facilities, President Houshmand shared that he recently toured the Jean and Ric Edelman Fossil Park and was amazed by its progress, stating that the project will bring a world-class museum to the region by 2023. The Wilson Hall addition continues to move forward with an expected completion date of Fall 2023. The beautiful facility will provide a dynamic academic environment for performing arts students with a new state-of-the-art dance studio. A design and engineering team was recently selected for the School of Veterinary Medicine building. The building will include academic spaces, a small animal hospital, and 50,000 square feet of research space, making veterinary medical education accessible for residents of New Jersey and addressing critical shortages in veterinarians in the region. The targeted completion date for the project is Fall 2025.

In terms of academics, CMSRU and the Henry M. Rowan College of Engineering have launched a 4+i(interview) program for undergraduate biomedical engineering students to recruit diverse, top undergraduate students not currently enrolled in the existing accelerated 3+4 program track. Students complete their undergraduate degree in four years conducting translational research/design and are guaranteed an interview at CMSRU if they meet program metrics. This program is intended to enhance existing pipelines to medical school for the university’s undergraduate students.

To date, research awards and sponsored programs exceed $51M. President Houshmand emphasized his excitement about the continued success of the University’s faculty in achieving significant grants and accolades, and praised their enthusiasm for the creation of new programs, all of which benefit students. Dr. Houshmand noted his excitement for the year ahead, and the continued progress toward R1 status while maintaining the commitment to excellence in teaching and student focus.

Regarding future initiatives, the leadership team is planning its annual Strategic Planning Summit that will take place in August. Tentative topics that will be covered over the two-day summit include: the status of the Path to R1 research designation; leadership development; talent retention and acquisition strategies to remain competitive in the market; and the state of the University’s cyber security capabilities.
In terms of budget, the University is awaiting the finalized State budget from the Governor’s Office. It is anticipated that the final budget may be ready by June 20, 2022. The University has several funding requests pending with the State, the most important of which is the $12M designated for the annual operations of the Rowan University Veterinary School of Medicine. The plan is to convene a special board meeting in July, after the State budget is passed with confirmed appropriations.

UNIVERSITY SENATE REPORT

Dr. Bill Freind opened by highlighting lessons the faculty have taken from the pandemic. Dr. Freind discussed Zoom classes and the initial stigma of how difficult and inconvenient they were considered when compared to in-person instruction; however, he noted that the online chat feature of the virtual classes have allowed a wider range of students to participate in classroom discussion as one of several positives that have emerged from the virtual format. Zoom classes are continuing throughout the summer semester and are allowing students from Central and North Jersey to continue their instruction while away from campus. Dr. Freind then stressed the need for the University to develop clear policies, procedures, and best practices for using Zoom. He continued, discussing overall student wellbeing, acknowledging an increase in the severity and prevalence of depression, while also pointing out the positive impact campus life and in-person instruction has had on much of the student body. Dr. Freind stressed the need for faculty to be flexible and attentive in the classroom as students continue to adjust post-pandemic. Dr. Freind discussed the evolution of in-person instruction, stating that 75-minute lectures centered around diligent note taking are no longer viewed as an effective delivery mode. Additionally, the concept of breakthrough technology that will create a high-quality, low-cost education for everyone is no longer viewed as plausible. Dr. Freind acknowledged that technology will continue to improve the classroom, but does not believe it will fundamentally transform higher education.

STUDENT TRUSTEE REPORT

Mr. Michael Harrington stated that Student Government Association (SGA) has been working since the end of the semester to lay the groundwork for a successful 2022/2023 academic year. In July, SGA will be heading to Maryland for their annual retreat, which is held to familiarize newly elected members with their roles and responsibilities. Additionally, at the retreat, SGA will select three goals, which will serve as guiding principles for the academic year ahead. SGA is excited
to host their annual University orientation for incoming freshman. The event is held to bring awareness to what SGA has to offer, with hopes of sparking enthusiasm amongst the student body to get more involved with the governing processes. Mr. Harrington announced the completion of a “transition catalog”, which was created by SGA secretary Morgan Justus. The purpose of the catalog is to simplify the search for academic and recreational clubs, creating greater student participation and retention.
