A hybrid meeting of the Rowan University Board of Trustees was held on June 21, 2023, in Room 104 of Business Hall on the Glassboro Campus and via WebEx. Chair Bruner welcomed everyone to the meeting and called the Public Session of the meeting to order at 4:06 p.m. and requested that all devices be muted.

PLEDGE OF ALLEGIANCE
Chair Bruner asked everyone to stand for the Pledge of Allegiance.
Ms. Theresa DeVecchis read the Open Public Meetings Act Statement.

Chair Bruner entertained a motion that was seconded for the Board to move into public session.

Chair Bruner entertained a motion that was seconded to approve the minutes of the meetings held on April 26, 2023. A vote was taken 13-0 in favor to approve the minutes.

President Houshmand welcomed everyone and congratulated the nearly 6,000 graduates of the Class of 2023. Additionally, he thanked the University community for their support of the celebrations and all who volunteered and worked to make the ceremonies a success.

In terms of Admission, first-time freshman and transfer undergraduate applications for Fall 2023 are strong and stand at 20,249, which is an increase of 3% from Fall 2022. International undergraduate applications are up 43% from last year. Global deposits are up 12.4%, Global international graduate deposits are up 17.6% and Global undergraduate 3+1 deposits are up 16.6%.

Rowan’s total for new gifts and commitments raised during FY23 is just over $47.5M. This total includes an exciting large gift that will be announced this fall. The University’s new fundraising campaign has raised more than $156M in two years.

In terms of facilities and infrastructure, construction on the Jean and Ric Edelman Fossil Park project continues with installation of the exhibits expected this summer. A soft opening is anticipated this fall. In May, an accreditation team from the American Veterinary Medical Association Council on Education visited Rowan University as part of the accreditation process for the Shreiber School of Veterinary Medicine. The design for the school was presented to the accreditation team, which was well received with minimal comment. The University is currently anticipating site work to begin in August 2023. Development of the farm on West Campus continues with planting in the fields and in the greenhouses. The farm will provide a learning environment and living laboratory for research into modern food production and will yield produce to benefit our Rowan community. Additionally, an aquaponics system was recently installed.

Cooper Medical School of Rowan University (CMSRU) was ranked #1 in New Jersey and #2 in the Delaware Valley for primary care by U.S. News & World Report. The Rowan-Virtua partnership
achieved a major milestone with Rowan Medicine becoming a Virtua Medical Group affiliate through a physician lease agreement, which is 18 months ahead of schedule. The partnership combines the expertise of Rowan Medicine and Virtua Health to improve health care in the region.

In terms of Student Affairs, this June a team from Rowan Student Affairs and Diversity, Equity, and Inclusion (DEI) participated in the 2023 Summer Institute on Equity hosted by the American Talent Initiative, which is a growing alliance of colleges and universities expanding opportunity for low- and moderate-income students. The team’s project focused on ways to improve the sense of belonging for Black and Latino men to enhance their experience and increase retention and graduation rates.

Regarding research, as of June 12, 2023, the University has received $69M in awards compared to $62M in awards last year. With a few weeks to go, it’s expected for awards to surpass $70M in this fiscal year.

In terms of academic affairs, the Bachelor of Science in Respiratory Therapy, the first and only baccalaureate respiratory therapy program in New Jersey, is admitting students and will begin classes in its programs this fall. Rowan physicists in the College of Science and Mathematics, Mr. Rob Chimenti and Dr. Sam Lofland, together with their Princeton colleagues, were awarded the National Science Foundation (NSF) Engines Development grant, the very first award funded by the National CHIPS and Science Act. The endeavor aims to lay the groundwork for a vibrant photonics ecosystem across the region.

The University recently celebrated the graduation of the newest cohort of the Human Resources Leadership Development Institute (LDI), which consists of 16 management level employees who were nominated by their respective divisions and selected for participation. These employees engaged in ten classes and the development of a final project relating to process improvement. The program is focused on developing a diverse talent pipeline building on the strengths of our current employees. The University is grateful to Human Resources for developing the program. President Houshmand congratulated the recent graduates and is looking forward to their accomplishments.

PUBLIC COMMENTS REGARDING PENDING RESOLUTIONS

Chair Bruner noted that no one signed up to address the Board regarding resolutions being considered for approval today. He moved to the Consent Agenda items.

ACTION ITEMS FOR CONSENT AGENDA

Chair Bruner informed the Board that Resolutions #2023.06.01 through #2023.06.31 are on the Consent Agenda. He stated that these items have been through the committee process, including discussion.
Chair Bruner noted that all items on the Consent Agenda must pass unanimously and without discussion. He asked if any Board members need to recuse themselves from a particular resolution, and, if so, they do so for the record now. There were none. Chair Bruner entertained a motion to approve the Consent Agenda. A vote was taken 13-0 in favor and the motion to approve the Consent Agenda was approved.

UNIVERSITY SENATE REPORT

Dr. William Freind opened his update speaking about Rowan’s recent commencement and how impressed he was with the sheer amount of fun and enjoyment that was had by both the students and faculty. Dr. Freind thanked Ms. Sara Freeman and her staff for all their hard work on the ceremonies. Dr. Freind next provided an update on University Wellness, recounting a recent visit to Philadelphia where he encountered a young woman wearing a Rowan THRIVE shirt. After a brief conversation with the woman, Dr. Freind discovered that she has engaged with the initiative and was actively paying attention to her overall wellbeing, which included trying to get proper rest as well as remaining active and exercising. These are the type of interactions that show the positive impact this program is having among the student population. Dr. Freind continued, stating that Student Government Association (SGA) passed a resolution asking the University to include modules in canvas, the University’s learning management system, regarding mental health. The University is working on implementing this new module for the upcoming fall semester. Additional potential modules to this system include food and housing insecurity. Next, Dr. Freind discussed generative AI and how this technology is still being evaluated by various firms who are yet to determine best practices. Therefore, it falls on Rowan University to develop its own policies, which are currently underway and should be ready for review in the fall. Dr. Freind then discussed University College, which he believes will serve as a primary hub for student interaction, allowing for growth and development as students, young adults, and ultimately working professionals. Dr. Freind is excited to serve as the Senate Representative for this College and looks forward to engaging the entire Rowan community with this program.

**REPORT ON ADVANCEMENT CAMPAIGN**

Mr. Dave Gallagher opened his address stating that he joined the Rowan team approximately one year ago and started to fully understand where the University was in its maturation, particularly during these times of rapid transformation in higher education. Mr. Gallagher stated that Rowan is at a unique inflection point as the current operating budget is funded primarily from student and state funding as well as entrepreneurial income. Mr. Gallagher continued, discussing a new campaign based on the results of the Strategic Advancement Study launched in 2023. This study was performed to determine the feasibility of launching a campaign with a goal of raising $400M and the vision of primary stakeholders for the future of the University. The study was performed by a Strategic Advancement committee and focused on four primary pillars; student success, advancing academic excellence, healthcare and life sciences, and promoting Rowan’s entrepreneurial DNA. There were over 60 interviews with key stakeholders and the findings of those interviews is that there is a sense that Rowan is on an upward trajectory as a university that was transformed thanks to the Rowan gift. Mr. Gallagher stated that Rowan has found a balance of commitment to excellence without compromising on its access and opportunities presented to current and prospective students. However, there is still a sense that the Rowan brand and identity are lagging, and communication efforts have not been able to keep pace with the excellence of the academic programs. The next step in terms of Rowan’s continued evolution will be to gain national prominence over the next 5 to 10 year period but that the plan to achieve that goal needs to be properly defined to ensure Rowan stays true to the core values of the University. Mr. Gallagher continued, stating that currently 5% of Rowan’s operating budget is derived from philanthropy but that at the end of this campaign he believes the number will be between 10%
- 12%, which he considers a tipping point for the University making it more of a public-private partnership. The ultimate goal for the campaign is to raise $400M by FY27.

STUDENT TRUSTEE REPORT

Mr. Harrington began his report by thanking the University for recent commencement ceremonies. He then shared that SGA has begun preparing for the upcoming 2023/2024 academic year. Comprehensive task forces have already been assigned to SGA’s student AVPs, who are directly connected to the University’s administration. One of the goals already set forth is to raise civic responsibility among the students, so that all populations are heard and represented accordingly.

Mr. Harrington then shared concerns that SGA would like to see addressed, stressing campus safety - specifically the hazards surrounding pedestrian crossing of Route 322. Additionally, SGA is requesting that the focus on wellness be the top priority. SGA would like to see an abundance of advertising of all the wellness resources that are available to students, including wellness modules in Canvas (Dr. Friend touched on this in his report), and for the University to offer more financial support throughout students’ careers at Rowan, such as micro scholarships and additional aid.
