

If you submitted questions to bids@rowan.edu by the due date indicated in the RFP document, but they were not received and answered here, please contact:

Alicia Gannon
Office of Contracting & Procurement
gannon@rowan.edu

Question #1

The Q&A from the prior bid states this will be awarded to a single vendor. Is that still the case?

Rowan University reserves the right to make this decision after the presentations.

Question #2

There is a Consent of Surety and a Bid form in the Required Documents listing, however these are listed to be provided if applicable. It is our understanding that for the services requested under this RFP, a bond is not required. Please confirm.

Confirmed

Question #3

Several documents were filled out and notarized from the previous RFP – the information on those forms has not changed. Can those documents be submitted or is it recommended that fresh submissions be provided.

Current documents should be submitted.

Question #4

What frequencies does the DAS need to support?

First responders, local police, EMS, Rowan Public Safety County Police, Fire and other emergency management services. This list is not meant to be exhaustive or exclusive, and is for informational purposes only.

Question #5

How many references do you want to demonstrate our ability to design, build and support a DAS System?

The University is asking for references from several DAS installations that support a minimum of 20 buildings in a suburban campus environment. As part of the evaluation process Rowan may require an onsite visit to a minimum of 2 DAS Installations within 100 miles or less of Rowan University.

Question #6

Are you anticipating different pricing for Emergency Responder vs Cellular coverage Services? If so, can you elaborate?

It is up to the proposers how they want to submit pricing. Because we are open to the possibility of multiple awardees, and a vendor may decide to bid on only one part of the services requested, vendors are welcome to submit separate pricing for Emergency Responder vs. Cellular Coverage services.
