

Firm Statement of Qualifications

Statements of Qualifications should be presented as requested in the tables below (do not modify the order).

Firms should respond to each item completely and concisely.

Table rows will expand as they are populated, so firms may take as much space as required.

Attachments that amplify responses or provide relevant illustrations may be referenced and included with proposal.

	1	
Describe your firm's advantages in comparison to other firms.		
Response here – Please overwrite text.		

	2	
Identify the office that would be assigned to this engagement. What is the size of staff in this office (by staff level) and the number of clients served by industry?		
Response here – Please overwrite text.		

	3	
How will you demonstrate to the University your understanding and knowledge of all codes pertinent to this technology?		
Response here – Please overwrite text.		

	4	
Provide five references from separate entities to include the cost of the project, technical design documentation, square footage of the facility, and year of construction.		
Response here – Please overwrite text.		

	5	
Describe the training provided to your technicians and design development team, and what measures are taken to ensure they are aware of leading technology and features available.		
Response here – Please overwrite text.
