

RFP 26-32 Roofing Services

Rowan University

Office of Contracting & Procurement

Questions & Answers

1. Will this be a set aside for SDVOSB or MBE? *No*
2. In regards to RFP 26-32 Roofing Services requirements for a Bid Bond and a Performance Bond, we are looking for alternatives. Are there other alternatives to the bond requirement? Example: Would a bond be necessary if the roofing service provider completed work, the university signed off on the work, and then received the invoice? In this example, the university would not authorize payment until after the work was completed and the university approved of the workmanship. Would this be an acceptable substitute for a bond? *The bond is only required if the original bond was issued and the contract extends past the original expiration date or the awarded contractor sells their business during the contract. The University does not expect to require bonding for this contract.*
3. (*We are) very interested in this Rowan University project, and we would like to make a visit this week, to walk the roof. Please let me know if this is possible. *This RFP is for the on call vendors to perform work as needed to all of the University property. There is nothing to see on a site visit.*
