Project Overview

Rowan University is seeking to contract with a vendor to provide Fire Protection System Upgrades at Oak & Laurel Halls, located on the Glassboro, NJ Campus.

I. SCOPE OF SERVICES
   A. Work consists of, but is not necessarily limited to the following:
      1. University will provide hydraulic calculations and sprinkler shop drawings, which will be used for the DCA project permit application. In addition, these calculations will determine the following criteria (to be issued on 9/18/18).
         a. Whether a fire pump is required for improvement of the existing system for the change of use or if street pressure is adequate.
         b. If the existing system main and branch piping is adequate for reuse per FM Global’s standard sizing and NFPA 13 light hazard density requirements.
         c. Existing building water supply is an underground 4” main which provides water for the domestic system and sprinkler coverage (water street pressure is typically between 50# and 65#).
      2. University will submit the DCA permit application drawings on or about 9/20/18.
      3. Bid shall include all systems improvements as shown on the following design documents.
      4. Contractor must follow all OSHA and Rowan safety guidelines and procedures.
      5. All sprinkler head change outs must be completed by 11/23/18 on the 1st and 2nd floors so architectural finishes (painting, flooring) can be completed by 11/30/18. This is based on the premise that the existing main and branch piping can be reused as determined by the contractor’s self-performed hydraulic calculations.
      6. Contractor must bid the project to meet the schedule outlined in the bid documents which may include weekend and/or shift work. Contractor must staff the project accordingly to meet this schedule since the end date is firm. Rowan will not entertain change orders for contractor’s inability to meet this schedule or time extensions.
      7. Contractor must outline in their bid any long lead items that may impact their ability to meet the deadlines of the schedule (excluding the need for a fire pump).
      8. The contractor will be permitted to conduct their building surveys once the letter of award is issued on or around 9/28. Contractor shall also begin the submittal process.
      9. Contractor is required to maintain a clean job site and to turn over the building back to the owner in the condition is was received.
   B. Summary of Project Milestones
      1. Construction Start Date: On or around September 28th, 2018.
      2. Substantial Completion Date: November 25th, 2018.
      3. Final Completion: November 30th, 2018. Work shall be fully completed; including all construction punch-list work by this date.
      4. Unfavorable weather conditions shall not be justification for delays in completion or final completion dates as specified. No change orders will be issued or approved for extensions of time due to weather conditions.
   C. Project will be constructed under a single prime general construction contract.
   D. Liquidated Damages:
E. Use of Premises
1. Contractor shall restrict work, staff and debris to the contract premises and as authorized by the University. Contractor is responsible for coordination of trades to ensure timely completion of work and to minimize disruption of the activities of the University.
2. Limit use of premises to work in areas indicated. Do not disturb portions of Project site beyond the site perimeter unless prior approval of the University is received prior to conduction of such work or operations.
3. Driveways & Entrances: Keep driveways and entrances serving premises clear and available to Rowan University, Rowan employees, and emergency vehicles at all times.
4. Do not use areas outside the limit of construction site for parking or storage of materials.
5. Upon completion of work, the awarded vendor is responsible for leaving any construction areas in clean condition.

F. Intent of Contract
1. Project documents provided for this contract are intended to require the contractor to provide for everything reasonably necessary to accomplish the proper and complete finishing of the work.
2. All work and materials included in the specifications and not shown on the drawings, or shown on the drawings but not in the specifications, shall be performed and/or furnished by the contractor as if described in both.
3. Any incidental materials and/or work not specified in the drawings or specifications which are, nevertheless, necessary for the true development thereof and reasonably inferable therefrom, the contractor shall understand the same to be implied and required, and shall perform all such work and furnish all materials as if particularly delineated or described therein.
4. Should there be an obvious error between the drawings and specifications, the most stringent constraints of the conflicting information shall be assumed by the contractor, unless otherwise stated in writing by the University Project Manager or designee, and the contractor shall complete the work as reasonably required, consistent with the intent of such drawings and specifications as interpreted by the University.
5. When a conflict exists between scope specific information in this IFB and the Project Specifications, and/or accompanying documents, the Project Manual and accompanying documents take precedence.
6. For more information about the Project, please view the accompanying documents on the Contracting & Procurement Website.

   E. During the period of contract or any extension thereof, the University reserves the right to add or delete specific services.
   F. Rowan University may make changes in the general scope of the contract services provided by the vendor by written notice. The vendor shall promptly comply with the notice and shall bring all subsequent services in conformance with the notice.
   G. If any such changes causes a material increase or decrease in the vendor’s cost of operation or the time required for attainment of required service levels, an equitable adjustment in the contract cost or time allotted for fulfillment of the contract shall be negotiated and the contract modified accordingly. Any change, alteration or modification of any contract will be valid and binding only if a submittal of a proposal, vendor hereby agrees to negotiate on good faith.
