GENERAL NOTE:
- All final locations of signs to be coordinated in the field.
- Refer to Sheet G007 for all signage types and mounting heights of all signage and components.
- All private offices to receive sign type 2.
- All public offices and meeting space to receive sign type 1.

RELATED RESOURCES. Abbott &amp; Startz, Inc. is dedicated to providing quality services to each of the projects we are engaged in. We take pride in our commitment to excellence, integrity, and client satisfaction.

Abbott &amp; Startz, Inc. is pleased to announce the completion of several major projects in the past year. These projects include the construction of new facilities, renovation of existing buildings, and the expansion of existing structures. Our team has been honored with numerous awards for our exceptional work in these areas.

In 2018, we worked on several high-profile projects, including the renovation of a historic building in the heart of downtown Philadelphia. The project required careful planning and execution to ensure the preservation of the building’s historical character while providing modern amenities.

Another significant project was the construction of a new office building in the suburbs of Philadelphia. The project involved the development of a green building that met LEED standards, showcasing our commitment to sustainable construction.

Abbott &amp; Startz, Inc. continues to be a leader in the construction industry, providing innovative solutions to our clients while maintaining a strong focus on quality and customer satisfaction. We look forward to continuing our success in the years to come.

### Audio Visual General Notes:

1. Do not copy original equipment unless otherwise specified.
2. Terminal points must be provided for all connections. Oversize, underfit, and incorrect interfaces are prohibited.
3. Where no connection point is specified, the facility equipment must be capable of accepting all connector capabilities of the audio equipment.
4. Where no specification is given, the equipment must be able to accept all voltages of the audio equipment.
5. Where no location is specified, the equipment must be able to operate in all locations.
6. Where no form is specified, the equipment must be able to accept all forms.
7. Where no color is specified, the equipment must be able to accept all colors.
8. Where no method is specified, the equipment must be able to accept all methods.
9. Where no material is specified, the equipment must be able to accept all materials.
10. Where no size is specified, the equipment must be able to accept all sizes.
11. Where no style is specified, the equipment must be able to accept all styles.
12. Where no type is specified, the equipment must be able to accept all types.

### Audio Visual Bidders Notes:

1. Bidder is required to provide all necessary details for all equipment, including the following:
   - Manufacturer
   - Model number
   - Specifications
   - Installation instructions
   - Maintenance instructions
