129-Classroom

The diagram illustrates the layout of Classroom 129. At the top center is a rectangular box representing a projector screen. Below it, the room is divided into two main sections by a central aisle. Each section contains four rows of rectangular tables. Each table is accompanied by three numbered seats (1, 2, 3) positioned below it. The seating is arranged in two columns of four rows each. On the right side of the room, there is a semi-circular protrusion, and on the left side, there is a semi-circular indentation, both likely representing doorways or alcoves.

All reservations in this space come standard with a laptop and projector screen. Please use the space below to indicate any additional set up requests. This form must be submitted **at least one week (5 business days)** prior to your event date.
