 RE: Senate Resolution **080512-5**

Resolution Promoting Commuter Rail to Rowan
--

Whereas: The Delaware River Port Authority is evaluating various routes for extending commuter rail into Gloucester County,
Whereas: One of the three corridors being considered is the Conrail railroad tracks which pass through Rowan campus (known in the study as NJ-3),
Whereas: Compared to the other routes under consideration, NJ-3 will provide substantially more benefits including: significantly better pedestrian accessibility to Gloucester County’s population; walkable access to many more Gloucester County institutions and businesses; potential revitalization of the historic towns through which it passes; and many environmental and sustainable benefits while lessening traffic on Gloucester County roads,
Whereas: NJ-3 will best provide Rowan University students, staff and faculty a safe, convenient and environmentally beneficial alternative for transportation in the region and to Philadelphia,

Be it resolved that: The Rowan University Senate strongly supports the selection of NJ-3 as the preferred corridor and recommends that the University administration make a similar endorsement as well as actively engage in promoting the benefits of selecting the NJ-3 route.
