

Important Information:

Initial course placement will be the highest level course as determined by any of the following: SAT/ACT Scores, transferred credits, transferred coursework, or ACCUPLACER Scores. For detailed information about placement, visit go.rowan.edu/placementtesting. The chart to the right will help you determine your course placement based on your ACCUPLACER tests today. If you have questions about your course placement please contact your advisor for more information.

AAF = 276-300

You are prepared for Calculus.

AAF = 263-275

You are required to complete a pre-requisite course for Calculus.

AAF = 200-262

Check with your advisor for the appropriate course.

Did you know... your reading placement does not affect your placement in writing (composition).

Your writing (composition) placement is based on your SAT/ACT scores. If you have any questions about your writing placement, please contact the First Year Writing Program by emailing fyw@rowan.edu.

NGR = 247-300

No additional reading comprehension coursework is required.

NGR = 235-246 You are required to take **Critical Thinking and Reading of Academic Texts** (READ 30100) in your first semester.

MY ACCUPLACER SCORES

AAF =

Advanced Algebra and Functions

QAS =

Quantitative Reasoning, Algebra and Statistics

NGR =

Reading Comprehension

College Level Placement

You are not required to take any basic skills courses. The credits for these courses will apply to graduation. Your advisor can help you to select the appropriate college level courses.

Basic Skills Placement

You must take any required basic skills courses beginning with your first semester and continuing each subsequent semester until you have completed all required basic skills courses. Students who do not begin and continue basic skills courses as specified are subject to registration holds until verification of appropriate progress can be established.

Tuition for basic skills courses is the same as for college-level courses. You will not receive graduation credit for passing basic skills courses. All basic skills courses are graded on a satisfactory/unsatisfactory basis. Basic skills course grades are not calculated in a student's grade point average. Students who do not pass the course must repeat the course.

What's next?

Complete the boxes marked My Accuplacer Scores. Then use the information boxes above and below them to determine your course placement based on today's test, but remember that your placement may be different if another factor indicates a higher placement. If you have questions about your score today, or need more information, please email testingservices@rowan.edu for assistance.

**** Indicates a Basic Skills Placement Course.**

Rowan University uses Accuplacer Next Generation placement tests, developed by College Board, as one factor to determine placement for Reading, college-level math courses, and Calculus courses. The tests used are:

- Next Generation Reading (NGR)
- Next Generation Quantitative Reasoning, Algebra, and Statistics (QAS)
- Next Generation Advanced Algebra and Functions (AAF)

Please see the Important Information section inside this brochure for more information about placement.

Is your placement different than you expected?

Re-taking the Placement Test

- Placement tests may be re-taken on campus at the Testing Center or online through the virtual proctor.
- There are fees associated with re-taking placement tests.
- For more information about re-taking placement tests, visit <https://sites.rowan.edu/student-success/advising/incoming-freshman/placement-test.html>
- If you have any questions or concerns regarding re-testing policies or other extenuating circumstances, please email testingservices@rowan.edu. We wish to support your appropriate placement and success at Rowan University.
