HOURS: MONDAY - THURSDAY 8:00AM - 6:00PM FRIDAY 8:00AM - 4:00PM

Updated September 13, 2021

If you are a student exhibiting any COVID related symptoms - sore throat, headache, nausea, loss of taste, or smell - please call the Wellness Center to schedule a COVID test. Please do not enter the Wellness Center if you are symptomatic.

All unvaccinated students, faculty, and staff are required to attend weekly COVID PCR testing on Wednesdays and Thursdays at the Owl’s Nest. (Located on the 1st Floor of the Student Center.)

If you are a faculty or staff member exhibiting COVID symptoms, please refrain from coming to campus and seek testing at your local healthcare provider, Walgreens, CVS, Rite Aid, or Urgent Care.

Vaccination Clinics: Please stop by the Owl’s Nest Mondays from 10am - 2pm for our weekly vaccination clinics. Currently the J&J and Pfizer are available.

Any student, faculty, or staff member that is asymptomatic, may receive a PCR COVID test if they feel they have been exposed. Current CDC guidance for asymptomatic testing is FIVE days after potential exposure for most accurate results. Asymptomatic testing takes place Wednesdays and Thursdays from 8am - 4pm in the Owl’s Nest.

- Prior to the first test, participants must register for an account HERE.
  - Click on forgot password, enter your Rowan email and follow instructions to complete registration.
  - The QR code needed to get tested and check out is found in the registration card tab. You will need this for each test.
- This PCR test is self-administered using a shallow nasal swab.
- Results will be posted to the JCM site portal usually 24-48 hours, depending on lab volume.
