

YES MEANS TEST™

Why Get Tested?

You can pick up an STD, like chlamydia, no matter how you're hooking up. Yup, vaginal, oral or anal sex can spread STDs. Getting tested is a part of staying healthy.

**SEXUALLY ACTIVE PEOPLE
GET AN STD BY AGE 25**

Statistically, that's you or one of your friends.
It's more common than you'd think.

Ready to say YES to TEST? Must be symptom-free.

Yes or no, sex is our choice. But, the facts are clear.

YES to sex? #YESmeansTEST

Visits are by appointment in the Wellness Center @ Winans Hall

Visit: studenthealth.rowan.edu or Call: 856-256-4333 to schedule your appointment.
